### Mrs. Laura S. Webb,

Vice-President of Women's Democratic Clubs of Northern Ohio.

Mrs. Laura S. Webb.

HERE ARE MANY sickly women between the ages of 45 and 55, but there are very few invalids over 55 and 60 years of age. The change of life coming to a woman near her forty-fourth year, either makes her an invalid or gives her a new lease on life. Those who meet this change in ill health seldom live ten years afterward, while a woman who lays aside the active duties of womanhood in health seldom fails to live on in happiness, years after she has passed 60. This is truly a critical time.

Mrs. Laura S. Webb, of Toledo, Ohio, recognizes the change of life as a dangerous period and she also has faith in Wine of Cardui. She writes:

"As I had always been troubled more or less at the menstrual period, I dreaded

the change of life which was fast approaching. While visiting with a friend I noticed that she was taking your Wine of Cardui, and she was so enthusiastic about it that I decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax. I do not dread it now, as I am sure that your Wine of Cardui will be of great benefit at this time."

Wine of Cardui is the remedy to re-inforce a woman against the shock that comes with the change of life. It re-establishes healthy functions after years of suffering. In doing this it has saved thousands of sufferers just in time. Do not wait until suffering is upon you. Thorough preparations should be made in advance. Begin the Wine of Cardui treatment today.

## DRIGGS IS INDICTED

Former Congressman Is Thus Proceeded Against.

### PLEA OF NOT GUILTY

The ex-Member of the National House of Representatives Declares All of His Transactions Were Strictly Legitimate.

New York, June 25.—Former Congressman Driggs was indicted by the federal grand jury in Brooklyn Wednesday. He appeared before Judge Thomas and gave bail. The indictment grew out of the investigation into the postoffice affairs made by the grand jury. Four indictments were found, all practically alike. Each charges that Driggs, between July 20 and 24, 1900, unlawfully agreed to receive, and did receive, a \$500 check from the Brandt-Dent company for procuring a contract from the United States government for making and delivering 250 automatic cashiers for the postoffice department.

To the first indictment Driggs pleaded not guilty, reserving the right to plead later to the others, which contain sixteen counts each, after his lawyer had read them.

Mr. Driggs absolutely refused to comment on his indictment. He has previously admitted, however, to re-

EX-CONGRESSMAN E. H. DRIGGS.

ceiving a salary of \$12,500 from the Brandt-Dent company for introducing its machines, but claimed that the work he did for the company was done before he was sworn in as a congressman, but after his election, and declaring that he had done nothing to which the government could object.

The indictments are found under sections 171 and 172 of the revised statutes of the United States, which provide for the punishment of any person receiving emolument while in the employ of the government.

Mr. Driggs was before the grand jury Wednesday preceding the finding of the indictments.

### SIX WOUNDED.

Exciting Scenes Enacted Upon the Streets of Richmond.

Richmond, Va., June 25.—Six men were wounded, two of them seriously, by the street railway company guards, who fired into a crowd of striking sympathizers at Main and Lombard streets, just outside of the city limits.

A car, guarded by employees of the company, armed with shotguns, was standing at that point. There had been a big crowd there all the evening. The company claims that the guards were first fired on. At any rate, they fired into the crowd and a brisk fusillade followed. At least six persons were struck, and two of them seriously hurt, being peppered in the back with buckshot.

While this was taking place in the West End, exciting scenes were enacted in the East End, where efforts were made to operate cars under the protection of the military. All sorts of missiles were hurled at the cars and obstructions placed on the track. Finally the cars, under the pilotage of a detachment of the Howitzers with a Gatling gun, were taken to the barns. All cars were withdrawn from the streets at 9:45 p. m. for the night.

### Change of Venue Granted.

Columbia, S. C., June 25.—Argument on the motion for a change of venue in the case of Jas. H. Tillman, indicted for murder, was concluded late Wednesday afternoon, and Judge Townsend at once announced his decision that the change would be granted. Counsel disagreed concerning the county where the case should be sent and this was left undecided for the present.

### World's Fair Expenditures.

St. Louis, June 25.—The World's Fair company has expended in actual cash \$8,500,000 up to the first of the present month, as shown by the report of the auditing committee of the national commission, at work here. The commission has been informally notified by the exposition company that the request will be made upon the secretary of the United States treasury to be allowed to draw on the fund of \$5,000,000 appropriated by the commission for the fair between now and September, probably in August.

## WORK INAUGURATED

Crescent City Commences Gigantic Sanitary Improvement.

### GROUND IS BROKEN.

New Orleans Is to Have a System of Sewerage, Water and Draining That Will Cost Eighteen Million Dollars.

New Orleans, June 25.—With formal ceremony, in the presence of a large assembly of citizens, Mayor Paul Capdeville to-day turned the first spadeful of earth in the work of constructing the vast system of sewerage, water and drainage which is to place New Orleans abreast of the best sanitarized cities of the world, and which is to cost, roughly estimated, \$18,000,000. This great undertaking is to be finally completed within the next five years. The tax to provide the money for this immense scheme of public improvement was voted in 1899.

The ceremonies were held at the corner of Canal and Robertson streets, where the first excavations are to be made under three contracts already let, involving an expenditure of \$1,600,000. Governor Heard, the Louisiana United States senators, members of congress, state and city officials, municipal officers, supreme judges, clergy, leading business men and various committees with have been identified with the sewerage movement, occupied seats on the platform. The special guest of honor was former Secretary of the Treasury Fairchild, president of the New York Trust company, which is prominently identified with financing the enterprise. Addresses were made by Hon. E. W. Kruttschnitt and Bernard McCloskey.

The movement which culminated in the final breaking of ground followed the epidemic of yellow fever in 1898. Though the disease was mild and the mortality comparatively insignificant, immense business losses were suffered through the institution of prohibitive quarantines, and a great public demand was aroused for radical sanitary reforms, and property holders promptly voted the required tax. Necessary legislative action was secured and constitutional authority obtained for the issue of bonds. Unavoidable delay, however, postponed the actual commencement of work until now.

### PETER'S OATH.

Swears by All That is Holiest and Dearest to Do His Duty.

Belgrade, June 25.—Amidst the greatest of enthusiasm King Peter took the oath before the skutschtina. Subsequently he reviewed the troops. The oath taken by the king was in the following terms:

"I, Peter Karageorgievitch, on ascending the throne of the kingdom of Serbia and assuming the royal prerogative, swear by Almighty God, and by all that is holiest and dearest to me upon this earth, that I will protect the independence of Serbia and the unity of its government; that I will maintain inviolate the constitution of the country; that I will govern in conformity with the constitution and laws, and that in all undertakings and dealings I will keep the welfare of my people before my eyes. Taking this my oath solemnly before God and my people, I call as witness the Lord God, to whom I shall give account at the judgment seat. So help me God. Amen."

### Miller Arraigned.

New York, June 25.—The federal grand jury in Brooklyn presented two indictments against George S. Miller, general agent of the Brandt Automatic Cashier company. The indictments charge Miller with aiding and abetting former Congressman Briggs to violate section 1581 of the United States revised statutes by paying money to Driggs. Miller was arraigned and withheld his plea pending examination of the indictment by counsel. He gave bail in the sum of \$2500.

### Indictments Presented.

Baltimore, Md., June 25.—In the United States district court indictments were formally presented against C. Ellsworth Upton and Thomas W. McGregor, employees of the postoffice department at Washington, charged with participation in mail pouch frauds. Accused men are out under \$5000 bail.

### SEVERE STORM.

Several Portions of North Texas Sus-  
tain Damage by Wind and Rain.

Dallas, June 25.—About 10 o'clock  
Wednesday night a northwest wind  
and heavy rain visited this city and vi-  
cinity, accompanied by constant light-  
ning and occasional thunder. Many  
parts of the city were flooded, and  
goods in basements badly damaged.

The home of Noble Witt in West  
Dallas was almost completely demol-  
ished. The family narrowly escaped  
death by the falling walls and drown-  
ing by the terrible downpour. Mrs.  
Witt was slightly injured.

A. Harris & Co. sustained much loss,  
goods being badly damaged, particu-  
larly waists and skirts.

Telegraph, telephone and electric  
light wires were in some instances pro-  
strated.

Four feet of water was reported in  
the basement of the Oriental hotel, and  
the employees had to work hard to keep  
the water from stopping the dynamo  
and putting out the lights, besides do-  
ing other damage.

On Haskell avenue, on Ervay street  
and in the neighborhood of the fair  
grounds the cars were compelled to  
stand in water up to the body of the  
car, and at the fair grounds the cars on  
the Belt line were compelled to go back  
around the Belt to get to the city.

M., comes the report that the town has  
been isolated by washouts, and it is

food. People whose homes have been  
flooded are living in tents or under the  
best shelter possible to obtain.

the spring term of court he married the  
state's main witness. At the first trial

gave him forty-five years in the peni-  
tentiary, but at the spring term, when  
she couldn't be compelled to testify, he  
was given fifteen years.

The Galveston Not Launched Owing to  
a Defect in the Basin.

Richmond, Va., June 25.—The  
launching of the Galveston, which was  
to have taken place Wednesday, has  
been postponed upon the recommen-  
dation of the engineers in charge of  
the gravity launching basin. The basin  
was not completed until Monday  
night and a small leak was discovered  
in the retaining bank, which it was  
deemed advisable to locate and stop  
before launching.

No delay in the removal of the ves-  
sel is involved, as the purpose of the  
government is to hold her at Rich-  
mond for two or three months.

No date has been fixed for the  
launching, but it will probably take  
place in the near future.

## CHASE AND SANBORN'S TEAS

Just think! it takes one thousand four hundred cups  
of tea to make the difference of one dollar. It will  
take you almost four years drinking one cup a day  
to save a dollar. It's the quality of the tea for  
which you pay one fourteenth of a cent a cup more.  
This fourteenth of a cent on each cup gives you  
thirty per cent better tea than is ever sold for 50c  
a pound. ONE POUND of this tea will make  
over two hundred cups

University Statistics.

The average age of the students of  
the main University at Austin for  
the session of 1902-03 was 23 years.  
At this department, 132 counties  
were represented, besides 14 states  
and two foreign countries. Six hun-  
dred and thirty-six out of eight hun-  
dred and thirty-two students of the  
main University were native born  
Texans. Of this same number, 318  
earned the money they expended on  
their education, while 174 either  
wholly or partly defrayed their ex-  
penses by work while in attendance  
at the University. Almost every oc-  
cupation and trade are represented  
by the parents of the students, far-  
mers, merchants, lawyers, stockmen,  
teachers, real estate agents, bankers,  
ministers, railroad men, and drum-  
mers, coming in the order named.  
This institution derives its susten-  
ance from the whole people and it is  
right that every class be represented  
on the rolls of its students body.

### PUBIC CONSISTORY.

It Was Held Thursday in the Presence of a Vast Throng.

Rome, June 25.—The public consistory, postponed from June 8, was held with much pomp and additional interest and rejoicing, for, despite the assuring news concerning the pope's health, many believed this to be the last consistory under Leo XIII. The assemblage gazed at the venerable pontiff with intense interest, and there was redoubled enthusiasm in the cries of "Long live Leo!" He looked a little more wax-like, a little more bowed, his voice somewhat thinner, and it was evident that his attendants were anxious. There were many strangers among the crowds gathered in the corridors of the Sala Regia and Sala Ducale to witness the passage of the cortege. The pontiff was born in a sedia gestatoria by eight bearers clad in red brocade. They were flanked by bearers of the famous Flabellifer feathered fans. The pope smiled while he blessed the crowds as he passed. In fact, at times he tried to rise so as to

POPE LEO XIII.

better impart his benediction, and it was only when he descended from the sedia gestatoria that his extreme weakness was apparent.

Following the pontiff came a gorgeous line of scarlet-clad cardinals, friars in various habits, priests and members of the papal court wearing velvet knee breeches and white cuffs. The church dignitaries, escorted by nobles, Swiss and Palatine guards, which, with the Sistine choir, chanting solemnly, formed an emotional picture.

Special tribunes were erected on both sides of the papal throne for the accommodation of the members of the diplomatic corps, Knights of Malta, Roman aristocracy, family of the pope and relatives of newly created cardinals. Among the Americans were Mr. Kennedy, rector of the American college; Mr. Farrelly, secretary of the American college and privy chamberlain to the pope; Most Rev. Robert Seton, formerly of Jersey City, titular archbishop of Heliopolis, and Rt. Rev. F. Z. Hooker, bishop of Jarro, Philippine islands.

### CRITICAL PHASE.

This is the Present Status in Regard to Manchurian Matters.

Washington, June 25.—The negotiations with China for a trade treaty have reached a critical phase, growing out of the demand of the United States and Japan for the opening of ports in Manchuria. The Russian government has professed to entertain no opposition to this demand, but the Chinese commissioners now take the ground that the ports mentioned in the demands, Moukden, Taku-Shan and Harbin, will be opened to foreign trade not now, but in the future when the trade necessities seem to require it. Therefore they propose to let this matter lay in abeyance and conclude the trade convention without this section. The United States refuse to accept the suggestion. Japan takes the same position. The English influence leans in that direction and the negotiations are deadlocked pending the contrivance of some means by the three powers named to bring some pressure upon China.

### WILLIAM PLEASED.

Compliments Rear Admiral Cotton About Condition of Kearsarge.

Kiel, Prussia, June 25.—"I shall telegraph to President Roosevelt, sir, telling him in what perfect condition I found your ship," said Emperor William, in parting with Rear Admiral Cotton and Captain Hemphill on board the American flagship Kearsarge after he had spent an hour and a half looking over the battleship as thoroughly as any naval inspector could have done, seeing the working of the turrets, examining the quarters of the men, looking at food in the galley and talking familiarly with the amiable seamen.

### Another Settlement Home.

New York, June 25.—It is reported, in connection with the withdrawal of Rev. Anson Phelps Stokes, the young preacher, his brother and brother-in-law, from active work in the University settlement, which has for several years done useful work among the east side poor, that a new settlement will at once be taken up with much wider scope. It is planned to inaugurate the new institution in the slums along the East river.

### "Grand Opera" Sold.

New York, June 25.—E. E. Smathers is reported to have purchased from George E. Smith, known on the turf as "Pittsburg Phil," the latter's star running horse, Grand Opera. The price is said to have been \$11,000.

### Was a Comrade of Kossooth.

New York, June 25.—Elek Ludvign, one of the leaders of the Hungarian revolution, a compatriot of Kossooth, and later a member of the staff of Major General Julius Stahl, U. S. A., in the civil war, is dead at his home here from heart disease. He became an exile from his native land in 1848.

### Raised Silk Worms.

Santa Fe, N. M., June 25.—Major Fred Muller has successfully experimented in raising of silk worms from eggs furnished by department of agriculture.

### POLES PROSTRATED.

Great Many of Them Blown Down by Storm of Wednesday Night.

Dallas, June 25.—The storm here and in this vicinity Wednesday night did considerable property damage, although no loss of life or serious personal injuries are reported. Several houses were blown down and trees felled. Between 800 or 900 telephones were more or less disabled.

The inter-urban railway between this city and Fort Worth suffered severely by telegraph and telephone poles being blown across the track and trolley wires prostrated.

In the vicinity of Arlington telegraph poles along the Texas and Pacific railway for a mile were blown down.

### BIGGEST STATION.

One For Tobacco Experiments to Be Located at Nacogdoches, Tex.

New Orleans, June 25.—It is stated the United States department of agriculture has decided to make Nacogdoches, Tex., the biggest tobacco experimental station in the world. On Aug. 1 a plant for curing all tobacco grown in experimental stations in the various southern states will be opened, with leaf tobacco experts of the department in charge. The government tests have demonstrated that tobacco can be grown in Texas equal, if not superior, to the costly tobacco of the Vuelta Abaja district of Pinar del Rio, Cuba, known as the finest in the world.

### NO RESOLUTIONS.

Bishop Hardy Says That Passage of Them Will Be Futile.

New York, June 25.—Bishop James A. Hardy, president of the home and foreign mission department of the African Methodist Episcopal church, refused at the annual meeting of his department in this city to entertain resolutions relating to the Delaware lynching. One of the officers had drafted resolutions denouncing the barbarity of the negro burning, but they were not entertained by the bishop. In explanation he said: "Resolutions will do no good. Let the law take its course. It may not from this incident seem so, but right will prevail, justice will be done and righteousness will triumph."

### Says He Was Not Present.

Wilmington, Del., June 25.—The verdict of the coroner's jury in the case of George White, the negro who was burned at the stake, and the release of Arthur Cornwell on bail seems to have appeased the unruly element here. For a time Wednesday night there appeared to be danger of race riots, but when it became generally known that Cornwell had been discharged all disturbance ceased and all is quiet now. Cornwell protests that he was not present at the lynching. No other arrests have been made.

### LIPTON THE GUEST.

He Was Dined at the Waldorf-Astoria by a Score of Friends.

New York, June 25.—Sir Thomas Lipton was the guest of honor at a dinner given at the Waldorf Astoria by two score of his friends to welcome him to the United States. Major General H. C. Corbin presided. Among those present were many prominent persons

SIR THOMAS LIPTON.

in official and civil life. There were neither set speeches nor toasts, but most of those present made felicitous remarks, the trend of all being a hearty welcome to Sir Thomas Lipton, with qualified wishes for his success in lifting the cup.

### Mitchell Will Attend.

Kansas City, June 25.—Missouri and Kansas coal mine operators and officers of districts 14, 21 and 25, United Mine Workers' union, which include branches in Missouri, Kansas, Arkansas, Texas, Oklahoma and Indian Territory, met in separate conferences here. Among matters to be considered by the operators will be action on the invitation from the miners to attend their general conference at Pittsburg, Kan., on July 13, and means of avoiding a strike next fall. The miners will, it is said, lay plans to secure a uniform wage scale, to be laid before the Pittsburg conference.

Mr. Mitchell, who will remain in the southwest for two weeks, will attend the Pittsburg conference.

### Will Transmit.

Washington, June 25.—The president has decided to transmit to the Russian government the petition presented by the executive council of B'Nai B'Rith regarding the treatment of Jews in Russia. This action has been taken after mature consideration. At first it was decided that the petition should not be presented because it might be rescinded by the government of Russia and lead to a response that might cause a break in the relations of the two countries. However, the first conclusion has been reconsidered, and by direction of the president the petition will now go forward. What the result will be is problematical.

### BAILEY'S MESSAGE.

Governor of Kansas States Reasons For the Special Session.

Topeka, Kan., June 25.—Governor Bailey, in his message to the legislature, says:

"The floods which have recently swept over a portion of our fair state have created conditions unusual and extraordinary. The valley of the Kaw and its tributaries which, but a short time ago, gave promise of rich harvests, has been devastated by the angry waters, villages and cities have been inundated, homes have been obliterated and the property loss to the citizens of our state is so vast that at this time its amount is but conjecture. Bridges that spanned our rivers that are absolutely necessary for the everyday transaction of business have, in many cases, been swept away and others made impassable, making necessary the expenditure of large amounts of money. Especially is this true in Wyandotte county, where the immense business between Kansas City, Kan., and Kansas City, Mo., is suspended until the river can again be bridged. While the conditions perhaps are most acute in Wyandotte county the same condition obtains in several of the other counties. In some of the counties those charged with the responsibility of repairing the losses find themselves helpless under the law to meet these unusual and extraordinary conditions, and it is for the purpose of giving such enabling legislation that I have exercised the power vested in me to convene the legislature in extra session.

"Assuring you of my highest personal regard, and with the earnest hope and belief that your acts during the present special session may prove beneficial to the whole people whose interests you have in charge, I pledge you my hearty cooperation."

### REFUSED TO REAFFIRM.

Iowa Democrats Then Named a Ticket by Unanimous Vote.

Des Moines, Ia., June 25.—Governor—J. B. Sullivan.

Lieutenant-Governor—D. B. Butler.

Judge of Supreme Court—John R. Caldwell.

Superintendent of Public Instruction—A. B. McCook.

Railroad Commissioner—W. S. Porter.

The Democratic state convention, by a vote of 463 9-10 to 314 1-10, refused to adopt a minority report signed by four members of the committee on resolutions, adding to the platform by seven members constituting the majority of the committee, a plank reaffirming the Democratic national platform of 1900, and by a vote of 628 1/2 to 199 1/2, rejected another minority report, adding to the plank demands for government control of the railway charges, a provision that in case such control should not prove effective that the national government should acquire ownership of railroads. All the nominations were made by acclamation.

### CORWELL RELEASED.

He Was Placed Under Bond of Five Thousand Dollars.

Wilmington, Del., June 25.—Arthur Corwell of Hartford City, Ind., who was arrested on a charge of complicity in the burning to death of George White, a negro charged with assault on Helen Bishop, was released on \$5,000 bail.

About 2,000 persons gathered in front of the city hall, where Corwell was confined, and made a demonstration. The police authorities took every precaution to prevent an attempt at rescuing the prisoner by the crowd. There were loud cries for the release of Corwell, to which the police paid no attention.

A coroner's inquest over the burned negro was concluded and when reached the police station that the verdict did not implicate Corwell the police decided to release him on \$5,000 bail. This was promptly furnished by Thomas Meugh, a wholesale liquor dealer. Word of this action soon reached the crowd and a great cheer went up, after which the people dispersed.
